

## Graphic Designer (internship)

Mavenful helps social media influencers to grow their popularity and become entrepreneurs. We train influencers with social media, self-makeup, fashion, and photography workshops; we assist them in running their social media accounts; and finally, we match them with brands via our machine-learning algorithm, to get access to product or service endorsement.

250+ influencers joined us In Indonesia, and 15+ brands collaborated with our influencers, from local (Colette & Lola) to international brands (Accor Hotels).

Our founding team is composed of expert from the tech industry (ex-Lazada digital marketing head) and influencers. We are looking for a Graphic Designer to help us grow and have an impact in the social media industry.

### Job Description

- Improve & Create advertisement banners for Website, Social Media Posts, Ads and other Online Marketing Channel with user-centered design
- Align banner design with Mavenful style without compromising UX and validate with marketing team
- Assist marketing team with design solutions
